

BOOST

**TINY ACCESSORY.
BIG WIRELESS PERFORMANCE.**

Boost establishes a powerful wireless network exclusively for Sonos speakers. No matter how large your home or how many WiFi devices you use, Boost gets rid of interference while increasing range so you can stream, surf and game all you want without missing a beat.

SONOS

BOOST is an accessory that plugs into your router to improve the performance of your Sonos system when your home WiFi network isn't strong enough.

BOOST BENEFITS

BOOST WIRELESS PERFORMANCE

BOOST neutralizes interference from wireless devices that can wreak havoc on your network like cordless phones, baby monitors and other household appliances.

ROCK SOLID COVERAGE

Three wireless antennae broadcast 360-degree signals through walls and ceilings for flawless coverage even to the most remote room in your home.

HOME THEATER EXPERIENCE

Wirelessly connect your PLAYBAR to SUB and rear speakers for an immersive surround-sound experience that's simple to set up and control.

SONOS WIRELESS HiFi SYSTEM BENEFITS

HiFi SOUND AND ROCK-SOLID WIRELESS

Experience your favorite music from the only wireless music system that combines warm, full-bodied sound with a powerful wireless network 100 percent devoted to streaming HiFi sound.

STREAM ALL THE MUSIC ON EARTH

A single app lets you play your entire music library, stream all of your favorite music services and tune in to more than 100,000 Internet radio stations and podcasts. Play the same song in every room, in perfect sync—or play different music in every room—from any source.

SIMPLE TO SET-UP, CONTROL, AND EXPAND

Control your favorite music sources and listening experience with a free app for iOS, Android, Mac or PC. And since it is a modular system, you can easily add music to more rooms with the simple press of two buttons.
