

# BRIDGE

## ENHANCE THE PERFORMANCE OF YOUR SONOS SYSTEM

BRIDGE is an accessory you can plug into your router to create a dedicated wireless network exclusively for your Sonos system that provides reliable performance no matter how large your home or how many WiFi devices you use. BRIDGE also wirelessly connects PLAYBAR to SUB and rear speakers for immersive, theater-quality surround sound.

# SONOS

## BRIDGE BENEFITS

### IMPROVE WIRELESS RELIABILITY

BRIDGE plugs into your home router to create a dedicated wireless network for your Sonos system that provides reliable wireless performance when your home WiFi network doesn't reach all of the rooms where you want music or just isn't reliable enough.

### ELEVATE YOUR TV SOUND

BRIDGE lets you wirelessly connect your PLAYBAR to SUB and PLAY:1 rear speakers for an immersive 5.1 surround sound experience that's simple to set up and control.

### EXTEND YOUR DEDICATED NETWORK

Once you've created a dedicated network, you can use additional BRIDGEs to extend the range of your Sonos system or even provide an internet connection to other products in your home using the built-in Ethernet switch.

## SONOS WIRELESS HiFi SYSTEM BENEFITS

### HiFi SOUND AND ROCK-SOLID WIRELESS

Experience your favorite music from the only wireless music system that combines warm, full-bodied HiFi sound with the most powerful solutions for delivering rock-solid wireless performance in any home.

### STREAM ALL THE MUSIC ON EARTH

A single app lets you play your entire music library, stream all of your favorite Music Services and tune in to more than 100,000 Internet Radio stations and podcasts. Play the same song in every room, in perfect sync—or play different music in every room—from any source.

### SIMPLE TO SET-UP, CONTROL, AND EXPAND

Control your favorite music sources and listening experience with a free app for iOS, Android, Mac or PC. And since it is a modular system, you can easily add music to more rooms with a simple button press.
